

## BISSELL South Korea Ltd. Purchase Order Terms and Conditions

- 1. Acceptance & Governing Terms.** These terms and conditions form a part of, and are incorporated into, a **“Purchase Order”** issued by BISSELL South Korea Ltd. (hereinafter **“BISSELL”**) for the purchase of goods or services specified on the Purchase Order. The Purchase Order constitutes an offer by BISSELL, made to the seller/vendor identified on the Purchase Order (hereinafter **“Supplier”**), to purchase certain goods and services (individually referred to herein as **“Goods”** or **“Services”**, or collectively referred to herein as **“Goods/Services”**) specified on the Purchase Order. The Purchase Order does NOT constitute an acceptance of any offer, quote or proposal made by Supplier. Any reference to, or inclusion of, an offer, quote or proposal made by Supplier (even if signed by BISSELL) is solely for the purpose clarifying the description and/or specifications associated with the Goods/Services, but shall have no legal effect and is not intended by the parties to conflict with the Purchase Order. Supplier’s (i) written acceptance, (ii) commencement of any work under the Purchase Order, or (iii) any other conduct by Supplier that recognizes the existence of a contract with respect to the subject matter of the Purchase Order shall constitute Supplier’s complete and full acceptance of the Purchase Order and these terms and conditions without exception. The parties agree that to the extent Supplier provides any documents or terms that are in addition to, in conflict with, or inconsistent with the Purchase Order or these terms and conditions, Supplier’s terms are and shall be expressly rejected by the parties, and without force or effect. For clarification, these terms and conditions shall govern notwithstanding any conflict with Supplier’s acceptance, acknowledgment or other stated terms, and shall be deemed incorporated into the Purchase Order as if set forth fully therein. The obligations of Supplier hereunder shall extend to all BISSELL **“Affiliates”** which are defined as entities that (i) own, (ii) are owned by, or (iii) are under common ownership with, BISSELL.
- 2. Quantity.** The quantity of Goods shall be defined in the Purchase Order. If Supplier delivers excess Goods, BISSELL may return such excess to Supplier at Supplier’s expense or retain the excess, in which case BISSELL shall not be required to pay for the excess unless and until BISSELL shall make use of such excess. BISSELL’s acceptance of a delivery containing less than the required quantity shall not relieve Supplier of its obligation to deliver the balance of the ordered Goods, and does not waive any of BISSELL’s rights with respect to a default under the terms and provisions of the Purchase Order for incomplete delivery. Authorized Services will be defined in the Purchase Order or a Description of Services/Statement of Work (**“SOW”**) that has been entered into between the parties. BISSELL is under no obligation or commitment to purchase Services beyond what has been specifically authorized in advance by BISSELL.
- 3. Delivery.** For Goods: Unless otherwise agreed by the parties, delivery of Goods shall be DDP Destination to BISSELL’s specified facility or other specified destination. Supplier will incur all delivery expenses to get Goods to the designated destination including origin port fees and export clearance. Deliveries shall (i) follow BISSELL’s shipping procedures, (ii) be suitably packed for shipment by Supplier in accordance with the specifications, (iii) be marked for shipment to the destination specified in the applicable Purchase Order, and (iv) except as noted in the Purchase Order, follow INCOTERMS 2010 if international delivery. Unless otherwise specified on the Purchase Order, Supplier shall deliver the Goods within thirty (30) days of the date of the Purchase Order. Supplier shall bear all risk of loss until acceptance of delivery by BISSELL. Title to Goods shall pass upon unloading at specified destination, or sooner if otherwise specified on the Purchase Order. If a delivery date is specified on the Purchase Order, BISSELL may refuse delivery of Goods that arrive more than two (2) days prior to the stated delivery date. Supplier is responsible for any premium freight charges incurred to meet any delivery date. Supplier shall ensure that each shipment/delivery is accompanied by applicable Material Safety Data Sheets and Certificates of Analysis. Supplier shall deliver Goods just-in-time (JIT). For Services: The authorized Services will be delivered pursuant to the timelines, deliverables and stated prices/costs contained in the Purchase Order, SOW or similar BISSELL generated document. BISSELL is under no obligation or commitment to purchase Services that are not delivered consistent with agreed upon timelines, deliverables and stated prices/costs.
- 4. Notice of Delay.** Time is of the essence. If Supplier anticipates difficulty in complying with the designated delivery date or in meeting any of the other timelines or deadlines, Supplier shall immediately notify BISSELL in writing. Such notice shall be informational only and its receipt shall not be construed as a waiver of any delivery schedule/deadlines or of any rights or remedies available to BISSELL.
- 5. Excusable Delay/Force Majeure.** The obligations of the parties shall be temporarily excused to the extent that performance is prevented by an occurrence or act beyond the performing party’s control, and not due to such party’s fault or negligence. Such occurrences or acts include: riots, fire, war, military actions, floods, labor strikes or work stoppages, acts of terrorism, cyber attacks/ITS failures, acts of God, and any ruling, ordinance, law or regulation of any governmental body having jurisdiction (each a **“Force Majeure Event”**) provided, however, that Force Majeure Events do not include, and the parties shall not be excused from any its obligations due to, economic hardship, changes in market conditions, insufficiency of funds, unavailability

or increased cost of equipment, materials or supplies, or labor difficulties (other than labor strikes). If BISSELL identifies a Force Majeure Event, Supplier shall hold delayed Goods at the direction of BISSELL and shall deliver them when the cause affecting the delay has been removed. BISSELL shall be responsible only for Supplier's direct additional out-of-pocket costs in holding any Goods or delaying performance of the Purchase Order at BISSELL's request. Supplier shall notify BISSELL of any Force Majeure Event as soon as it occurs and give BISSELL its best estimate of revised delivery date. Notwithstanding anything to the contrary, BISSELL reserves the right to reject Supplier's revised delivery date and to cancel the Purchase Order without any liability. If Supplier's production is only partially restricted or delayed, Supplier shall use its best efforts to accommodate the requirements of BISSELL, including without limitation giving the Purchase Order preference and priority over those of other customers that were placed after the Purchase Order. In any event, Supplier shall maintain a contingency plan to avoid any delay in the delivery of Goods/Services under the Purchase Order associated with events beyond Supplier's reasonable control.

**6. Invoices, Price and Payment Terms.** Within thirty (30) days after the performance of Services or delivery of Goods, Supplier shall submit to BISSELL an accurate invoice that contains the corresponding Purchase Order number. Supplier shall submit invoices only after Services have been fully rendered, and/or all Goods have been shipped. The Goods/Services shall be furnished at the price set forth on the Purchase Order. Supplier must obtain BISSELL's prior written consent to exceed the price set forth in the Purchase Order. Supplier acknowledges and agrees that its failure to obtain such prior written consent relieves BISSELL from paying any prices, fees, costs or expenses that exceed the price set forth in the Purchase Order, and constitutes Supplier's waiver and permanent discharge of all claims against BISSELL for any prices, fees, costs or expenses in excess of the Purchase Order. Supplier's invoices are payable only in U.S. dollars. All prices shall be based on the delivery terms specified on the Purchase Order. An invoice will be paid only after confirmation by BISSELL that the Services were fully rendered and/or all Goods were received, and that such are in good order and conform to the authorized Purchase Order and/or any governing document. Provided that the Goods/Services are in good order, conform to specifications and BISSELL's quality assurance requirements, and that an accurate invoice has been received, BISSELL shall pay Supplier for Goods/Services within ninety (90) days from receipt of an accurate invoice. Supplier warrants that the prices for the Goods/Services are no less favorable than those currently extended to any other customer for the same or similar Goods/Services in similar quantities. BISSELL shall receive the full benefit of all discounts, premiums and other favorable terms of payment customarily offered by Supplier to its other customers. If Supplier reduces its price of the Goods/Services during the term of the Purchase Order for other customers, Supplier shall correspondingly reduce the prices in the Purchase Order to BISSELL. Supplier warrants that the prices in the Purchase Order are complete and no additional charges of any type shall be added without BISSELL's prior written consent including, without limitation, duties, customs, tariffs, taxes, shipping, packaging, labeling, storage, insurance, boxing, crating/containers, travel costs, lodging, mileage and meals. Supplier shall not charge or invoice BISSELL for any travel time, general office administration costs or routine communication or postage expenses. All claims for money due or to become due from BISSELL shall be subject to deduction or set-off against sums owed by Supplier or by reason of any counterclaim arising out of the Purchase Order. Such deduction or setoff shall be in addition to any other rights or remedies available to BISSELL at law or equity or pursuant to these terms and conditions. BISSELL shall not be responsible to pay, and Supplier forever waives and discharges, any amounts due under an invoice for Goods/Services that were not invoiced within one hundred and twenty (120) days after performance of Services or delivery of Goods.

(a) **Specifications.** Supplier shall manufacture Goods according to specifications on the Purchase Order and/or governing document unless otherwise specified in writing by BISSELL. Any changes in the specifications must be in writing and signed by BISSELL. Supplier shall not change materials, designs or processes without BISSELL's prior written consent. BISSELL may revise specifications upon written notice to Supplier, which revisions shall be immediately implemented by Supplier. However, if any such revisions cause an increase or decrease in the cost or the time required for performance, an equitable adjustment of the price shall be made, and the Purchase Order shall be modified in writing accordingly. At BISSELL's request, Supplier shall cooperate with BISSELL's employees and agents in developing additional or revised specifications for Goods, including without limitation a revised price, quantity or delivery date, if appropriate.

At BISSELL's request, Supplier shall submit its production and quality test reports and related data to BISSELL. **13. BISSELL, at Supplier’s cost, will reasonably cooperate with Supplier in the defense of such actions as Supplier may reasonably request.

**14. Intellectual Property.**

- (a) **Defined.** For purposes of this Purchase Order, the term “Intellectual Property” means copyrights, trademarks, patents, inventions (whether or not patentable), trade secrets, know-how, creative ideas, design rights, registrations, discoveries, developments, improvements, goodwill, drawings, specifications, CAD data, blueprints, concepts, designs, technology, source code, works of authorship, mask works, trade names, trade dress, processes, methods, technologies, domain names,

BISSELL names, logos, copyrights, industrial designs, formulas, techniques, procedures, plans, notes, suggestions, materials, artwork, software, documentation, and other such items which may constitute intellectual property in the Goods/Services including, without limitation, as they are contained in parts, components and ancillary materials associated with the Goods/Services. Intellectual Property also includes all rights that may be secured in such Intellectual Property in the United States or any other country or jurisdiction that is associated with the Intellectual Property (e.g., patents, patent applications, patentable rights, design rights, copyrights, moral rights, trade secret rights, mask work registration, trademarks, trademark applications, trademark rights, and other similar rights).

- (b) **Rights and Ownership.** Intellectual Property, including Intellectual Property contained in, resulting from, or arising out of the Goods/Services provided by Supplier (whether Supplier was acting alone or jointly with BISSELL), shall be, and at all times shall remain, the sole and exclusive property of BISSELL. Any improvements in Intellectual Property relating to the Goods/Services that are made by Supplier, alone or jointly with BISSELL or others, shall also belong exclusively to BISSELL. Acceptance of the Purchase Order constitutes a written assignment of all such Intellectual Property from Supplier to BISSELL. Supplier will also cause its employees, subcontractors and employees thereof to assign to BISSELL (or to Supplier who will then assign to BISSELL) any Intellectual Property created by Supplier under this Purchase Order. Supplier will execute any documents that BISSELL reasonably determines are necessary to document BISSELL's rights in the Intellectual Property, or to secure or perfect any rights in the Intellectual Property. All copyrightable subject matter created by Supplier within the scope of Supplier's Goods/Services to BISSELL shall constitute "works-made-for-hire" as set forth in 17 U.S.C. Section 101 and are the property of BISSELL, or to the extent works-made-for-hire does not apply, Supplier hereby assigns to BISSELL all right, title and interest to all copyrights and moral rights therein. Performance under this Purchase Order does not create any right or license whatsoever for the benefit of Supplier in or to any of Intellectual Property except that BISSELL grants Supplier a revocable-at-will, non-exclusive, royalty-free, license necessary to perform the Services and/or supply the Goods consistent with the Purchase Order. To the extent Supplier uses any Intellectual Property that BISSELL does not own in the Goods/Services, Supplier hereby grants to BISSELL a worldwide, non-exclusive, payment-free and royalty-free license in and to such Intellectual Property for the period during which the Goods/Services are supplied by Supplier, and for as long as the Goods/Services are in use by BISSELL and/or its consumers.
  - (c) **Procedures.** Supplier agrees to (i) inform BISSELL promptly of any Intellectual Property that is developed or created setting forth in detail the procedures employed and the results achieved, (ii) at BISSELL's request and expense, apply for any United States and foreign letters patent, registrations or copyrights, either in Supplier's name or as BISSELL shall request, (iii) fully assign (and hereby does assign) to BISSELL any such Intellectual Property and rights thereto, and (iv) do such other acts (e.g., give testimony, assist with applications, execute documents, etc.) which, in the opinion of BISSELL, is necessary to obtain, support or perfect any patent, registration, copyright, or other right in the Intellectual Property.
  - (d) **Non-Infringement.** Except to the extent that the Intellectual Property in question originated solely from designs or specifications provided by BISSELL, Supplier warrants and guarantees that the Goods/Services, and any resulting work product, will not infringe, violate or misappropriate any Intellectual Property of any third party. Supplier represents and warrants that there are no Intellectual Property claims or actions asserted, pending or threatened against Supplier by any third party. Supplier will provide BISSELL with immediate notice of such claims or actions if they arise. If any Goods/Services (or parts or elements thereof) become, or is likely to become, the subject of an Intellectual Property infringement, violation or misappropriation claim or action, then Supplier will, at its own expense, promptly (a) secure the rights necessary to continue using the Goods/Services (and any parts or elements thereof); or (b) replace or modify such Goods/Services (or parts or elements thereof) to make them non-infringing, such that the replacement or modification will not degrade the performance or quality of the Goods/Services.
15. **Special Warnings.** Prior to and with the shipment of any Goods, Supplier shall furnish BISSELL with sufficient written warning and notice (including without limitation appropriate labels on goods, containers and packing) of any hazardous material that is a part of any of Goods, together with such special handling instructions necessary to advise carriers, BISSELL and their respective employees and agents on how to exercise due care and precaution to prevent bodily injury or property damage in the handling, transportation, processing, use or disposal of the Goods being shipped.
16. **Default.** Each of the following shall constitute an event of default by Supplier: (a) Supplier's failure to timely or properly perform Services or deliver Goods, (b) Supplier's failure to deliver conforming Goods/Services as specified by BISSELL; (c) Supplier's failure to perform, observe or comply with, or Supplier's repudiation of, any material provisions of the Purchase Order or these terms and conditions (including but not limited to Supplier's representations and warranties); (d) Supplier's failure to make progress so as to endanger timely and proper completion of Services or delivery of the Goods; or (e) Supplier's insolvency or the filing of a voluntary petition of bankruptcy by or against Supplier, or the appointment of a receiver or trustee for Supplier, or the execution of an assignment for the benefit of Supplier's creditors, if such petition, appointment or assignment is not vacated or nullified within fifteen (15) days of such event; provided that Supplier may correct a failure or

breach described in (b) or (c) above within ten (10) days (or such shorter commercially reasonable period specified by BISSELL) after receipt of notice from BISSELL specifying such failure or breach.

- 17. Remedies.** In the event of a breach, default or other event for which indemnification in Section 13 is permitted, BISSELL shall, in addition to its other rights and remedies at law or in equity, have the following rights and remedies to utilize in its discretion.
- (a) For Goods, BISSELL shall be entitled to (a) utilize all rights and remedies afforded by the Uniform Commercial Code; (b) reduce quantities under a Purchase Order Document to the extent BISSELL rejects the Products as nonconforming; (c) cancel all or any part of a Purchase Order Document; (d) require that the Supplier promptly repair or replace the nonconforming Goods at Supplier's expense in accordance with BISSELL's repair/replacement plan, and/or (e) collect from Supplier all damages, costs and expenses associated with Supplier's breach or nonconforming actions including, but not limited to, incidental and consequential damages, court costs, attorneys' fees, costs to conduct a recall or respond to governmental agencies, and costs related to resolving quality-related issues at Supplier's manufacturing facilities (including BISSELL employee expenses such as travel, hotel and meals). If BISSELL rejects nonconforming Goods, Supplier shall be solely responsible for all costs associated with the handling, transporting and disposing of any such nonconforming Goods. Nonconforming Goods shall not be replaced without BISSELL's written permission. BISSELL shall hold nonconforming Goods for disposition in accordance with Supplier's instructions and at Supplier's risk. Supplier's failure to provide written instructions within ten (10) days after notice of nonconformity shall entitle BISSELL, at BISSELL's option, to charge Supplier for storage and handling, or to dispose of the Goods, without liability to Supplier.
  - (b) For Services, BISSELL shall be entitled to (a) reject the nonconforming Services without liability to BISSELL, (b) require that Supplier promptly re-perform the Services at no additional cost to BISSELL, (c) cancel all or any part of the Purchase Order, and/or (d) collect from Supplier all damages, costs and expenses associated with Supplier's breach or nonconforming actions including, but not limited to, incidental and consequential damages, court costs, and attorneys' fees.
  - (c) All rights and remedies reserved to BISSELL under the Purchase Order and these terms and conditions are cumulative and in addition to all other remedies provided in law or equity. BISSELL's payment for or acceptance of any Goods/Services under the Purchase Order shall not (i) constitute an acceptance of such Goods/Services, (ii) discharge Supplier from its obligations hereunder including responsibility for latent defects, or (iii) limit or impair BISSELL's right to assert any legal or equitable remedy. BISSELL retains the right to withhold any payments due Supplier until Supplier cures any breach of, or default under, the Purchase Order or these terms and conditions. BISSELL may set-off any amounts due from Supplier to BISSELL pursuant to this Purchase Order with payments otherwise due to Supplier.
  - (d) The parties acknowledge and agree that the Goods/Services to be rendered by Supplier hereunder are special and unique, and that the covenants and restrictions contained in this Purchase Order are reasonably required for BISSELL's protection. A breach or default (either actual or threatened) by Supplier may cause continuing and irreparable injury to BISSELL's business, for which the remedies at law will be inadequate. Therefore, Supplier agrees that in addition to any other monetary damages and remedies that may be available in law, equity or otherwise, in the event of a breach or default (actual or threatened), BISSELL shall have the right to specific performance and/or injunctive relief without the necessity of proving actual damages or providing bond.
- 18. Arbitration.** Any and all disputes, controversies, claims or differences that may arise out of, in connection with, or in relation to the Purchase Order or these terms and conditions shall be settled, if possible, professionally and promptly through mutual consultation between the parties. In the event of the failure of such amicable settlement, all disputes shall be settled by final and binding arbitration conducted by an independent and impartial sole arbitrator selected by the parties, or pursuant to the rules of arbitration if consensus cannot be reached by the parties, within 14 days after written notice of arbitration is provided by the claiming party. Arbitration of disputes shall be conducted in accordance with the then existing rules of the Netherlands Arbitration Institute. The arbitration proceedings shall be conducted in English and the arbitrator must be fluent in English. The arbitration shall take place in Amsterdam, The Netherlands. The arbitrator shall have no power of Ex Aequo et Bono or Amiable Compositeur in rendering a decision. The request for arbitration shall sufficiently describe the nature of the claim(s) and the relief requested. The arbitration award/decision shall be rendered within six months of the appointment of the arbitrator, unless the parties reasonably determine that, in the interest of justice or the complexity of the case, such time limit shall be extended. The arbitration award may be enforced in any court of competent jurisdiction. The parties agree that the arbitration, including the pleadings, evidence and any award, shall remain confidential and may not be disclosed by themselves or the arbitrator to any third party, except as required by law or to enforce a binding decision. Nothing in this arbitration provision shall prevent a party from seeking temporary or emergency equitable relief with respect to any breach of the terms of the Purchase Order. During the pendency of any arbitration proceedings, and subject to the expiration or earlier termination of the Purchase Order in accordance with its terms prior to final resolution of such arbitration proceeding, and unless otherwise agreed in writing by the parties, Supplier and BISSELL shall continue to observe and perform their respective obligations and agreements under the Purchase Order. Each party shall bear their own costs and expenses in preparing and presenting its case (including costs associated with legal counsel, experts and witnesses). Costs and expenses of the arbitrator, or for the using the Netherlands Arbitration Institute to provide the procedural framework for the arbitral proceedings, shall be borne by the parties

equally. The arbitrator may, however, include in the final award an allocation of costs and expenses that are otherwise borne equally by the parties, to the party who the arbitrator has deemed to have achieved relative success on their claims, counterclaims and defenses.

19. **Governing Law.** The rights and obligations of the parties under this Purchase Order shall NOT be governed by the provisions of the 1980 U.N. Convention on Contracts for the International Sale of Goods. Rather, the rights and obligations of the parties, and any actions or proceedings with respect to matters arising under or growing out of this Purchase Order, performance under this Purchase Order, or the relationship of the parties, shall be governed, construed, interpreted, and enforced in accordance with the laws of the Republic of Korea. For this reason, the parties irrevocably consent to the exclusive personal jurisdiction and venue of courts located in the Republic of Korea, and waive any right to dismiss or transfer such action or proceeding because of the inconvenience of the forum. Nothing in this Section on “Governing Law” shall prevent the enforcement in another forum of a judgment obtained in an appropriate court as identified in the prior sentence.
20. **Limitation on BISSELL’s Liability.** Any legal action against BISSELL based on BISSELL’s alleged breach of its obligations under the Purchase Order must be commenced within one (1) year after the cause of action has accrued. BISSELL shall not be liable for (i) loss of profits or anticipated profits, (ii) loss of business opportunities, or (iii) any other incidental, indirect, special, punitive, or consequential damages. BISSELL’s liability on any claim for damage or loss arising under the Purchase Order, or due to the performance or a breach thereof, shall not exceed the price allocable to the Goods/Services that gives rise to the claim (less material, labor, production or other cost savings realized by Supplier).
21. **Assignment; Subcontractors and Personnel.** Supplier shall not assign (in whole or in part) the Purchase Order, or any interest in the Purchase Order, or subcontract any of its substantive duties under the Purchase Order or these terms and conditions, without BISSELL’s prior written approval. Any attempted assignment or subcontracting without BISSELL’s consent shall be null and void, and without force or effect. Any approval/assignment shall not release Supplier from any of its obligations under the Purchase Order or these terms and conditions. Supplier is fully and wholly liable and responsible for all work performed by any subcontractor or other personnel hired or employed by Supplier. Any authorized subcontractor or other personnel that assists Supplier hereunder shall be acceptable to BISSELL and must undergo appropriate background screening and checks. Such subcontractor or personnel must not possess a character or reputation that reflects poorly on BISSELL (e.g., a history of theft, committing intentional damage to persons or property, the use of illegal drugs, the commission of a criminal act, being listed in a sex offender registry, etc.). Upon request by BISSELL, Supplier shall remove any employee, agent or subcontractor reasonably determined by BISSELL to be unacceptable. All rights under the Purchase Order and these terms and conditions are assignable by BISSELL.
22. **Integration and Amendment.** These terms and conditions supersede prior communications and discussions between the parties on the subject matter hereof, but shall be subject to any written agreements (including BISSELL-authorized governing agreements, SOW’s or Descriptions of Services) between the parties unless such documents state otherwise. In the event of any conflict between these terms and conditions and any such written agreement, the terms of the written agreement shall control. No stipulations, representations or agreements by the parties that purport to amend, alter or affect a Purchase Order or these terms and conditions shall be binding upon BISSELL unless reduced to writing and attached to and incorporated into the Purchase Order, and no local, general or trade custom shall alter or vary these terms and conditions. Unless noted otherwise herein, any amendment, modification, waiver or discharge of this Purchase Order or these terms and conditions is only valid if it is in writing and signed by an authorized representative of both parties.
23. **Severability and Replacement.** If any provision of these terms and conditions shall be deemed to be illegal, invalid or unenforceable for any reason, such illegality, invalidity or unenforceability shall not affect any other provision of these terms and conditions, and the parties shall endeavor to sever and replace the illegal, invalid or unenforceable provision consistent with the intention evidenced by these terms and conditions. If any provision of these terms and conditions is found to be ambiguous or in conflict with any other provision hereof, such ambiguity or conflict shall be resolved in the manner that provides the greatest protection, benefit and limitations of liability to BISSELL.
24. **Waiver.** Neither (a) BISSELL’s failure to (i) insist on performance of any term of the Purchase Order (which includes these terms and conditions) or (ii) exercise any right or privilege, nor (b) BISSELL’s waiver of a breach or violation of any term of the Purchase Order, shall operate as, or be construed to be, a waiver of the same or any other terms or provisions of the Purchase Order, or will affect BISSELL’s right to enforce the terms of this Purchase Order.
25. **Termination; Survival of Rights.** The Purchase Order, SOW, and/or other governing document shall set forth specific term of the Purchase Order. Notwithstanding the foregoing, BISSELL may terminate the Purchase Order upon thirty (30) days prior written notice to the Supplier. A termination of the Purchase Order by either party shall not form the basis of any claim for damages including any consequential damages which may include, but are not limited to, claims for loss of anticipated profits, customers, or goodwill, or claims for unrecoverable expenditures, commitments or capital. The expiration or earlier termination of the Purchase Order shall not (a) terminate any vested rights, terms that expressly survive expiration/termination, or terms which out of necessity must survive expiration or termination, or (b) release either party from an obligation under the Purchase Order or these terms and conditions prior to agreed expiration/termination, except as expressly provided herein.

- 26. Non-Solicitation of Employees/Non-Compete.** During the period that the Purchase Order is in effect, and for a period of six (6) months thereafter, Supplier shall not directly or indirectly (a) solicit or approach any employee of BISSELL for the purpose of inducing such employee to terminate employment with BISSELL, or (b) provide Goods/Services to, or engage in business with, or accept employment or affiliation involving work from or within any Competitive Product Lines or vendors operating within Competitive Product Lines of BISSELL. “**Competitive Product Lines**” includes any non-BISSELL branded product or product line that is similar to or competes with the product lines in which BISSELL operates, including but not limited to floorcare devices that clean via wet or dry technology, floorcare robotic devices that clean via wet or dry technology, floorcare devices that use steam technology to clean and wash, spot cleaners that clean via wet or dry technology, air-care, air cleaning and carpet and floor cleaning chemical product lines. Competitive Product Lines include products sold by BISSELL’s current competitors or competitive brands including Dyson Limited, Royal, SharkNinja Operating LLC (Shark), Rug Doctor, Chiaphua Industries Ltd or any of its marketing partners, Shop Vac, Sharp, Miele, Black & Decker, LG, Phillips, TTI or Techtronic Industries (Hoover, Dirt Devil, Vax, Oreck), Samsung, Aerus, Hoover Candy, Henry, Vorwerk, Karcher, SEB Group, Rowenta, Genie, BSH Group (Bosch Siemens), Xiaomi, Dreame, TEK, Haan, UWant, iRobot, Ecovacs, Roborock, Neato, Eufy/Anker, Cecotec, Midea, ProTeam, Tacony, Nilfisk, and Tennant. The parties acknowledge and agree that a breach of this Section may cause continuing and irreparable injury to BISSELL’s business, for which remedies at law may be inadequate. Accordingly, the parties agree that, in addition to any other monetary damages and remedies that may be available in law, equity or otherwise, any violation or threatened violation of this Section 26 shall entitle BISSELL to seek and obtain injunctive relief against the threatened breach without the necessity of proving actual damages or providing bond.
- 27. Record Keeping & Audit.** For a period of two years from the expiration or termination of the Purchase Order, Supplier shall maintain complete accounts and records of the work product and transactions supporting the Goods/Services delivered to BISSELL (including records of its reimbursable expenditures and fees) in accordance with generally accepted accounting principles. Such records include, but are not limited to, (i) financial/accounting records, (ii) manufacturing, sales, shipment, returns and promotion ledgers and information, and (iii) if applicable, any consumer or customer comments and call logs and data (collectively the “**Records**”). BISSELL shall be permitted, with 48-hours prior written notice, to conduct (or have its representative’s conduct) an audit or inspection of such information. If Supplier is a manufacturer of Goods, Supplier will keep such Records for no less than ten (10) years following the date to which they pertain, or for such longer period as is required by applicable law. In particular, Supplier will assist Buyer to comply with RoHS2 Directive 2015/863 which requires that a written declaration of conformity (“DoC”) be maintained for all product models and retained, along with the associated technical documentation for such product, for ten (10) years after such product was placed on the market. In that regard, Supplier commits to provide Buyer with a written DoC for all product models which, along with the applicable RoHS2 Technical Documentation File, shall be maintained by the Supplier for a period of ten years after such product was placed onto the market. The Supplier’s RoHS2 Technical Documentation File must include, at a minimum, (a) a general description of the product, (b) design and manufacturing drawings, (c) a Bill of Materials (BOM) identifying all components, materials, and subassemblies, (d) Supplier’s assessment of RoHS2 compliance risks, and (e) Supplier’s record of method used to conduct such assessment. The RoHS2 Technical Documentation File shall be securely maintained and stored by the Supplier, and shall constitute “Confidential Information” hereunder. Upon receipt of written request by the Buyer, Supplier shall provide Buyer with a copy of a product’s RoHS2 Technical Documentation File within five (5) business days. Supplier’s failure to comply with this requirement shall constitute a breach of warranty, and shall result in Supplier being liable for any penalties or fees imposed upon Buyer by applicable regulatory authorities, as well as any corresponding damages. The record retention and audit requirements of this Section 17(i) shall survive the expiration or termination of this Agreement.
- 28. Independent Contractor.** The parties are independent contractors hereunder, and nothing in this Purchase Order shall be construed to place the parties in any other relationship including employer/employee, partners, joint ventures, fiduciaries or agents. Neither party has authority to assume or to create an obligation that binds the other party. If Supplier performs under this Purchase Order with subcontractors, employee or other personnel, and Supplier acknowledges that BISSELL has no labor relationship with, right, power, authority or duty to select, hire, manage, discharge, supervise or direct any of Supplier’s employees, agents, subcontractors or their respective employees. Supplier will fully indemnify and defend BISSELL and its Affiliates against any claims asserted by Supplier’s employees, agents, subcontractors or their respective employees alleging employment or other labor relationship with BISSELL.
- 29. Conflict Mineral Rules.** The U.S. has adopted a Conflict Minerals Rule to address human rights abuses in the mining industry in parts of the Democratic Republic of the Congo and adjoining countries. The Rule requires U.S. companies to report annually if the Goods they contract to manufacture contain Conflict Minerals necessary to the functionality of production of the product and whether those Conflict Minerals were derived from Covered Countries. The Rule covers columbite-tantalite, cassiterite, wolframite, and gold ore - which are refined into tantalum, tin, tungsten, and gold. At this time, the Covered Countries include: Democratic Republic of Congo; Angola; Burundi; Rwanda; South Sudan; Tanzania; Central African Republic; Uganda; The Republic of the Congo; and Zambia. If Supplier is a supplier of Goods to BISSELL, BISSELL requires Suppliers to: (i) determine if any Goods supplied to BISSELL incorporate, or are made with a process that utilizes, one or more of the Conflict

Minerals, regardless of country of origin; (ii) map supply chains associated with those products or inputs; and (iii) identify the smelters, refiners and banks used in the supply chain to process the Conflict Minerals and (iv) validate the origin of minerals/metals that are recycled, scrap, and original extraction. Suppliers must maintain documentation supporting the requirements noted above.

- 30. Anti-Terrorism and Sanctions.** Supplier has not, and will not, (i) violate any laws related to money laundering or financing terrorism, including the USA Patriot Act of 2001 (“**Anti-Terrorism Law**”), nor has it, nor will it (ii) engage in any transaction, investment, undertaking or activity that conceals the identity, source or destination of the proceeds from any category of prohibited offenses designated by the Organization for Economic Co-operation and Development’s Financial Action Task Force on Money Laundering. Supplier is not a person, nor is it owned or controlled by persons that are (iii) the subject or target of any sanctions administered or enforced by the US Department of the Treasury’s Office of Foreign Assets Control (OFAC), US Department of State or other relevant sanctions authority (“**Sanctions**”), or (iv) located, organized or resident in a country or territory that is, or whose government is, the subject of Sanctions, including Cuba, Iran, North Korea, Sudan and Syria. Supplier does not (v) conduct any business or engage in making or receiving any contribution of goods, services or money to or for the benefit of any person/organization, or in any country or territory, that is the target of any Sanctions, (ii) engage in any transaction related to, any property or interests in property blocked pursuant to any Anti-Terrorism Law or (iii) engage in or conspire to engage in any transaction that evades or avoids, or attempts to violate, any of the prohibitions set forth in any Anti-Terrorism Law.
- 31. REACH Regulation No 1907/ 2006.** Supplier will assist Buyer to comply with Europe’s REACH (Registration, Evaluation and Authorisation of Chemicals) Regulation No 1907/ 2006 under Article 33, which requires all suppliers to provide information on the use of the Substances of Very High Concern (“SVHCs”) within finished products. Due to their hazardous properties, SVHCs will, in the near future, be severely restricted or prohibited for use in finished products. Manufacturers and importers of raw chemicals and finished products have a legal obligation to ensure the chemicals are safe for use. This process involves recording the levels of chemicals within each product and its packing imported or manufactured within the European Union. In addition, Article 33(1) of the REACH Regulation states that manufacturers and importers of products are required to notify their customers of the presence of any SVHCs in the products. If Supplier is a supplier of Goods to BISSELL, BISSELL requires that the Supplier will comply with this requirement. The first candidate list of SVHCs was published on 28th October 2008, and the latest version is provided at <http://echa.europa.eu/candidate-list-table>. If any SVHCs are present in products shipped or supplied to BISSELL, then Supplier must so note and provide in writing (i) the weight of finished product, (ii) the chemical name of any SVHC from the candidate list, (iii) its CAS or EC number, (iv) its percent (%) in the finished product, and (v) the SVHC’s location in the finished product.
- 32. RoHS Directive 2015/863.** Supplier will assist BISSELL to comply with Directive 2015/863 on the restriction of the use of certain hazardous substances in electrical and electronic equipment and national implementing legislation. The Goods that BISSELL purchases from Supplier shall not contain any restricted hazardous substances exceeding the maximum concentration levels as provided for in aforementioned legislation. Supplier shall have in place internal production controls in accordance with module A of Annex 2 of decision no. 768/2008/EC to ensure that the Goods comply with Directive 2015/863. When Goods are shipped or supplied to BISSELL, Supplier shall provide BISSELL with a written DoC, declaring that the Goods comply with Directive 2015/863. Supplier shall inform BISSELL immediately if it knows or has reason to believe that the Goods do not comply with Directive 2015/863.
- 33. Information Security.**
- (a) Supplier represents that it currently follows and shall continue to follow industry best practices, and shall comply with all applicable federal, state and international privacy and data protection laws, to prevent any compromise of its information systems, computer networks, or data files (“**Systems**”) by unauthorized users, viruses, or malicious computer programs which could in turn be propagated via computer networks, email, magnetic media or other means to BISSELL. Supplier shall apply appropriate internal information security practices, including, but not limited to, using appropriate firewall and antivirus software; maintaining countermeasures, operating systems, and other applications with up to date virus definitions and security patches; installing and operating security mechanisms in the manner in which they were intended and sufficient to ensure BISSELL will not be impacted nor its operations disrupted; documenting such security practices in written policies that are reviewed and, if necessary, updated not less than annually; providing appropriate training to personnel regarding data privacy; and permitting only authorized users access to computer systems and applications. Supplier shall:
- (i) use up-to-date antivirus tools to remove known viruses and malware from any email message or data transmitted to BISSELL; (ii) prevent the transmission of attacks on BISSELL via the network connections between BISSELL and the Supplier; and (iii) prevent unauthorized access to BISSELL systems via Supplier’s networks and access codes. Supplier shall immediately notify BISSELL if the security of Supplier’s Systems is breached or compromised in any way. Supplier shall cooperate with BISSELL in connection with BISSELL’s handling of the matter, including but not limited to providing physical access to or making available all relevant logs, files, data reporting and other materials required to comply with applicable laws or as reasonably required by BISSELL. Supplier shall reimburse BISSELL for all actual reasonable costs

incurred by BISSELL in responding to and mitigating damages caused by any such breach or compromise, including all costs of notice of the breach.

- (b) If in the course of its performance of its obligations under this Agreement, Supplier collects, receives, accesses or uses any confidential protected individually identifiable personal information (including but not limited to health, financial, identity-related or authentication-related) (“PII”), Supplier shall do so only in accordance with all applicable U.S. and international privacy laws, including but not limited to the California Consumer Privacy Act of 2018 (“CCPA”) and the General Data Protection Regulation (GDPR) (Regulation (EU) 2016/679). Any such PII is deemed to be Confidential Information. Supplier will use keep and maintain all such information in strict confidence, and will take all commercially reasonable organizational and technical steps to protect against unlawful and unauthorized processing of such information. Supplier shall safeguard PII which is received, transmitted, managed, stored, or otherwise processed and require all or its personnel, representatives, subcontractors and agents that have access to PII to meet the above security precautions. If Supplier receives PII of BISSELL’s customers, BISSELL may (i) require that Supplier conduct or maintain an audit, such as a SAS70 Type II audit, and Supplier shall share the results of such audit with BISSELL, and/or (ii) be permitted to conduct independent on-site security assessments (at BISSELL’s expense), at a time mutually agreed upon by BISSELL and the Supplier, with respect to the Supplier’s security and compliance with these requirements.
- (c) Supplier will promptly notify BISSELL in the event of (i) any actual or reasonably suspected unauthorized use of, loss of, access to or disclosure of PII, any actual or reasonably suspected breach of its security or Systems that results or may result in unauthorized access to such information, or receipt of a complaint in relation to the privacy and data security practices of Supplier or a breach or alleged breach of this Amendment relating to such privacy and data security practices (each a “**Security Incident**”); (ii) the scope and consequences of the Security Incident; and (iii) the corrective actions taken or proposed to remedy the Security Incident. Except to the extent required by applicable law, Supplier agrees that it shall not inform any third party of any Security Incident without first obtaining BISSELL’s prior written consent, other than to inform a complainant that the matter has been forwarded to BISSELL’s legal counsel. Further, Supplier agrees that BISSELL shall have the sole right to determine: (i) whether notice of the Security Incident is to be provided to any individuals, regulators, law enforcement agencies, consumer reporting agencies, or others as required by law or regulation, or otherwise in BISSELL’s discretion; and (ii) the contents of such notice, whether any type of remediation may be offered to affected persons, and the nature and extent of any such remediation.
- (d) If Supplier will collect confidential PII in the course of performing its obligations under this Agreement, Supplier shall retain, use and disclose such PII only in accordance with applicable privacy laws. Supplier shall not retain, use, or disclose the PII for any purpose other than for the specific purpose of performing the Services. The collection, sale or use of the personal information disclosed shall be limited to what is strictly necessary to the business purpose of this Agreement.
